

ECM Capabilities

Key Services

Weatherization

- » Building Envelope
- » Building Insulation
- » Window Film
- » Thermal Windowpanes
- » Cool Roofing

Water

- » High Security Plumbing Retrofits
- » Kitchen Water and Energy Conservation
- » Irrigation and Ground Water Wells
- » Cleaning Chemicals: On-Site Generation
- » Cooling Tower Water Conservation
- » O-Zone Laundry
- » Aquatics: Treatment, Pumping, Filtration and Heating
- » Steam Services

Lighting

- » Lighting System Retrofit and Control

Air

- » Kitchen Hood Retrofits
- » Laboratory Control Retrofits

HVAC

- » Generator Heat Pumps
- » Thermal Destratification
- » HVAC Armor Coating
- » HVAC Air Handler Refurbishment
- » HVAC Cooling Tower Refurbishment
- » Refrigeration Controls
- » EndoTerm

Infrastructure

- » Manhole & In-ground Systems Refurbishment
- » AMR/AMI: Water Meter Retrofit Programs
- » On-Site Hypochlorite Generation for Water Treatment and Wastewater Facilities

ECM is a cleantech contractor that provides comprehensive energy efficiency services for energy service companies (ESCOs) and corporate clients. We offer a broad range of proven technology and sustainability solutions.

Our services are provided by six specialized units:

WEATHERIZATION

ECM's Building Envelope Solutions group is a nationwide, single-source provider of insulation, window efficiency, and weatherization services.

WATER

Our water engineering group offers water heating treating, pumping, and steam systems; electric fixture tuning and upgrades; cooling tower cost saving solutions; smart meter retrofits; irrigation optimization; and sustainable pool technologies.

LIGHTING

ECM has a full-service, turnkey lighting group which has completed over 100 million square feet of ESCO and corporate lighting retrofits. Our flexible approach helps achieve savings on every project.

AIR

ECM is the exclusive U.S. retrofit provider for TEL, a world leader in airflow controls and monitors. We provide airflow solutions for new and existing laboratories that help promote safety, increase energy efficiency, and improve operational performance. We also retrofit commercial and industrial kitchen hood systems.

HVAC

With our cutting-edge HVAC Armor® coating and repair processes, ECM refurbishes, protects, and helps increase the efficiency of HVAC equipment (HVAC Armor also coats new equipment). We offer solutions for cooling coil, air handling unit, and cooling tower restoration.

INFRASTRUCTURE

We offer rejuvenation, retooling, and data automation services for wastewater, industrial, and large commercial clients. Our services help failing manholes, pipelines, tank linings, and other critical infrastructure improve efficiency, lower costs, and extend system life.
